Hospital of
Philadelphia
is pleased to
announce...

The Children's Hospital of Philadelphia is pleased to announce the appointments of John M. Maris, M.D., as chief of the Division of Oncology and Frank M. Balis, M.D., as director of clinical research for the division. Dr. Balis has also been named director of clinical research for the Hospital's Center for Childhood Cancer Research, which is directed by Dr. Maris.

John M. Maris, M.D.

Dr. Maris became acting chief of the Division of Oncology in 2008 and holds the Giulio D'Angio Endowed Chair in Neuroblastoma Research. He is an associate professor of pediatrics at the University of Pennsylvania School of Medicine, where he is also a member of the Abramson Family Cancer Research Institute. He has been a member of the Division of Oncology staff since 1995.

Dr. Maris is an expert on the molecular genetics and treatment of neuroblastoma. He is the principal investigator of numerous NIH-funded grants focused on the disease, and also chairs the Neuroblastoma Disease Committee of the Children's Oncology Group.

Frank M. Balis, M.D.

Dr. Balis comes to Children's Hospital from a 27-year career at the National Cancer Institute, where he was most recently the Institute's clinical director. His research program has focused on drug development for childhood cancers.

At Children's Hospital, Dr. Balis will oversee all aspects of clinical research on pediatric cancer. He will expand existing strong clinical research programs in neuroblastoma, brain tumors and leukemia and establish additional clinical research programs in pediatric sarcomas and lymphomas.

For more information about the Division of Oncology or to make a referral, call 1-888-ONC-CHOP.
